

Orbán Tamás

PUBLIKÁCIÓS JEGYZÉK impact faktorral (a megjelenés évében)

Idegennyelvű referált közlemények

1. Orbán, T., Csókay, B., Oláh, E.
Sequence alterations can mask the presence of each other when screening with SSCP or HA: BRCA genes as examples.
BIOTECHNIQUES 29: 94-98, 2000; IF: 1.756
2. Orbán, T., Oláh, E.
Expression profiles of BRCA1 splice variants in asynchronous and in G1/2 synchronized tumor cell lines.
BIOCHEM BIOPH RES CO 280: 32-38, 2001; IF: 2.946
3. Horváth, C.F., Bocsi, J., Rásó, E., Orbán, T.I., Oláh, E., Tímár, J. Ladányi, A.
Constitutive intracellular expression and activation-induced cell surface upregulation of CD44v3 in human T-lymphocytes.
EUR J IMMUNOL 31: 600-608, 2001; IF: 4.990
4. Orbán, T.I., Oláh, E.
Purifying selection on silent sites - a constraint from splicing regulation?
TRENDS GENET 17: 252-253, 2001; IF: 12.417
5. Weber G., Shen F., Orban T. I., Kökény Sz., Oláh E.
Targeting signal transduction.
ADV ENZYME REGULAT 43: 47-56, 2003.; IF2002: 2.548
6. Orbán T. I., Oláh E.
Emerging roles of BRCA1 alternative splicing.
J CLIN PATHOL: MOL PATHOL - Invited Review 56:191-197, 2003.; IF2002: 2.549

Referált folyóiratban megjelent absztraktok

1. M.van der Looij, C.I.Szabo, T.Orbán, I.Besznyák, G.Liszka, M-C.King, E.Oláh
Founder BRCA1 and BRCA2 mutations in Hungarian women with incident breast or ovarian carcinoma: update of a hospital-based study.
EUR J GYNEC ONCOL 20: 105, 1999
2. T.I. Orbán, E. Oláh
Expression of different BRCA1 splice variants in different cell lines.
P AM ASSOC CANC RES 40: 658, 2000
3. T.I.Orbán, E.Oláh, G.Weber
Ribavirin (Riba) is antiproliferative and oncolytic; it down-regulates c-myc expression and signal transduction, causes apoptosis and induced differentiation.
P AM ASSOC CANC RES 43: 967, 2002
4. T. I. Orbán, E. Oláh
Expression profiles of predominant BRCA1 splice variants in normal breast, breast tumours and leukocytes of breast cancer patients.
CELL PROLIFERAT 35(5): 305-306, 2002
5. T.I.Orbán, E.Oláh

Expression profiles of predominant BRCA1 splice variants in normal breast, breast tumours and leukocytes of breast cancer patients.

P AM ASSOC CANC RES 44: 999, 2003 (AACR-Avon díjat nyert abstract).
